

# Money Basics

## For Your Senior Years

Our Money Basics: For Your Senior Years program is designed to help seniors facing money and debt problems get a handle on their finances and take control over their money.

We provide a comprehensive work book that will help you look at your income, identify your debts, see where your money is going, while also providing you information on how to protect yourself from financial scams and traps.

We also provide free, informative, and public presentations on a number of financial related issues for seniors in the community. These presentations are a great way to ask questions and get answers on your financial questions.

To order work books, find out more about presentations, or to schedule a presentation for you group, call Matthew at 705-254-1424
